Mains Breaker Panel Assemblies

BM-MCC-2250U

BM-MCC-3250U

BM-CH3400U

Mains breakers are composed of a 2U MCCB (250a single phase), 3U MCCB (250a three phase) and a 4U CH/Westinghouse (400a three phase). Every breaker is loaded with 4/O input/Pass lugs as well as 400a buss system using 14 or 20 #4 conductor terminals per leg. Panel construction is made from mild steel, Powdercoated black with standard EIC rack holes.
