

# Soca Multipin Breaker Panels

PNP4-SDBR-2461

## Panels also available in unique combinations

The Soca Multipin Breaker stock panels are based on 15 designs in 120v, 220v and combinations. The nature of the modular design allows the user to detach and reconfigure the panels based on future applications. The primary components are the 19pin panel mount Soca Multipin 120v (Hot, Neutral, Ground) and 220v (Hot, Hot, Ground) receptacles. Breakers are the 42 series 1pole 20a and 2pole 20a. Panel construction is made from 16g mild steel, powdercoated black w/ standard EIC rack holes.
