L4-30

The L14 Receptacle panels are based around two connector sets. The primary components are the 4pin (2-Hots, Neutral and Ground) L14-20 and L14-30 panel mount twistlock receptacles. 12 gauge 36" leads (unterminated) for L14-20 receptacles, 10 gauge 36" leads (unterminated) for L14-30 receptacles. Panel construction is made from 16g Mild steel, Powdercoated black w/ standard EIC rack holes.
